

Analyzer Team

Meeting Minutes

March 29, 2014

Next meeting: March 30, 2014
Location: Tompkins Hall 411

I. Announcements

- 1- A meeting will take place tomorrow at 7 PM. Professor Roberts will attend and we will discuss the data models. Location: Tompkins 411. Please, feel free to attend.

II. Discussion

- 1- We decided to divide the group into 3 different sub groups.
- 2- The plugin group: Ibou and Alem started working on the plugin today, Ishwarya and Harsh will be joining them as well. They will produce a working analyzer plugin that has access on DB tables (creation, deletion).
- 3- The use cases group: Ishwarya and Yash discussed the basic use cases with the group during the meeting. Sonal will join them and they will all produce the final use case document, following the template sent by the professor.
- 4- Kholood, Hrishikesh, and Ishwarya attended the meeting with the builder team to discuss their data model. Kholood and Hrishikesh will produce the data model for the analyzer part by tomorrow's meeting to discuss it with the professor.
